THE NEW HORIZON EXPERIENCE

2018. Building the Foundation

Our journey began with hands-on experience in shipping operations, building a strong understanding of cargo movement and client needs.

Growing relationships with carriers, agents, and partners strengthened our ability to coordinate shipments across wider markets.

2020. Expanding Our Network

2022. Strengthening Our Expertise

Deeper experience in freight and customs clearance enabled our team to manage more complex cargo with greater efficiency and control.

From unexpected delays to complex clearance requirements, our team developed practical solutions to keep clients' cargo moving.

2024. Turning Challenges into Solutions

2026. The New Horizon Experience

Today, experienced people, strong relationships, and hands-on coordination come together to deliver reliable solutions from shipment planning to final clearance.

STORES & PACKAGING

NEW HORIZON uses shock absorbers and insulating materials (Cork board, sponge, plastic bubbles, foam...)

Sorting & Classification

Goods are carefully sorted and classified according to size, type, and fragility to determine the most suitable packing method.

Protective Packaging

Each item is individually protected using appropriate cushioning and insulating materials such as foam, bubble wrap, and sponge.

Secure Packing

Goods are securely arranged in suitable boxes, with empty spaces filled and items firmly stabilized to prevent movement, impact, or damage during handling and transportation.

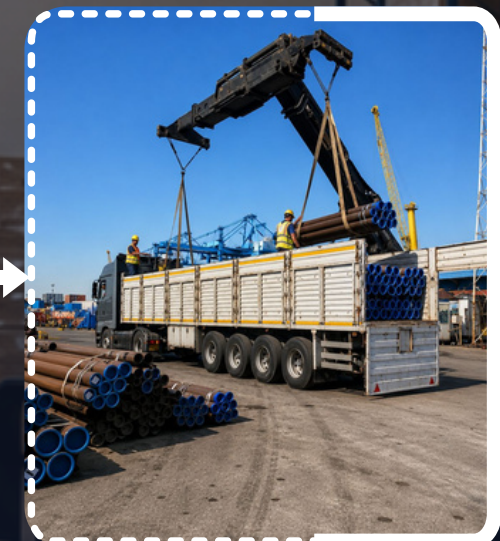

Labeling & Safe Handling

Each package is properly sealed and clearly labeled with handling instructions, orientation marks, and necessary identification to ensure safe storage, transport, and delivery.
